## EXPERIENCE

MARCH 2022– PRESENT

**SR. SOFTWARE ENGINEER**, READY TO WORK, KATHMANDU, NEPAL

- Led **project planning, system design**, and implementation for various software development projects.
- Serving as a Senior Engineer, **empowering** and **leading** teams to consistently meet task deadlines.
- Optimized **DevOps CI/CD** environments, significantly reducing **build** and **deployment** times.
- Extensive experience with **Google Cloud Platform (GCP) services**, including WAF, Firebase, Cloud SQL, App Engine, Compute Engine, Load Balancer, BigQuery, and Cloud Storage, as well as CI/CD tools like GitHub Actions and CircleCI.
- Familiar with **testing**; Regression, Unit, Integration, and end-to-end (E2E) testing(Cypress) to ensure robust and reliable software.
- Implemented **best practices** for **code quality, performance optimization**, and **security**.
- Actively participated in **code reviews**, providing constructive feedback to enhance codebase **maintainability and scalability**.
- Utilized a diverse tech stack, including **Golang, Gin framework, Next.js**, and **Ant Design (Antd)** to deliver high-quality projects.

JUNE 2021– MARCH 2022

**FULL STACK DEVELOPER**, HEUBERT KATHMANDU, NEPAL

- **Designed and developed prototypes** in Figma based on project specifications, offering insights on **UI/UX experience** and design complexity.
- Led **front-end development** using **HTML/CSS, JavaScript, React, Redux**, and the **Ant Design framework**.
- Engineered **backend** components using **Node.js, NestJS, and PostgreSQL**.
- Ensured project code quality by writing **unit tests** with **Jest** and performing API tests with **Postman**, including merging pull requests and providing thorough code reviews.
- Actively contributed to **sprint retrospectives**, empowering the team to enhance overall quality and performance.

2018 – 2021

**FRONTEND DEVELOPER**, EVERSOFTE POKHARA, NEPAL

- Created **prototypes** in Figma to **conceptualize** and refine project **UI/UX**.
- Utilized **HTML/CSS, JavaScript, React, Redux**, and **Next.js** to develop robust web applications.
- Leveraged **Ant Design (Antd), Bootstrap**, and **Material UI** libraries to enhance UI components and streamline development.
- Configured **webpack** and **Babel** to optimize website performance and ensure compatibility across browsers.
- **Led front-end development teams** on projects ranging from **E-Commerce** platforms to **hotel**

**booking systems**, providing guidance and expertise to deliver exceptional user interfaces

#### 2018 (4 MONTHS INTERNSHIP)

##### **BACKEND DEVELOPER, SEWA DEVELOPMENT** KATHMANDU, NEPAL

- Developed modules for **Human Resource Management Software** using **.NET framework and C#**.
- **Implemented Test-Driven Development (TDD)** practices to ensure **robust** and **reliable** software solutions.
- Contributed to **module designs and implementation** under the guidance of Senior Software Engineers.
- Assisted in the **documentation** of software features, user manuals, and **technical specifications** to facilitate understanding and usage.

## EDUCATION

2014- 2015

**DIPLOMA IN 3D ANIMATION AND VFX**, MAYA ANIMATION ACADEMY

2015-2019

**BACHELOR IN COMPUTER APPLICATION**, POKHARA UNIVERSITY

2020-2023

**MASTERS IN BUSINESS ADMINISTRATION**, PURBANCHAL UNIVERSITY

## SKILLS

- **Version Control platform:** GitHub, Bitbucket
- **Programming Language:** Javascript, Typescript, C#, Python, Golang
- **Framework:** Gin, Nestjs, NextJs, React
- **Design Library:** Bootstrap, ReactStrap, Antd, Material UI
- **Cloud Platform:** Google Cloud Platform
- **Project Management Tool:** Trello, Jira, Confluence, Google
